

ASIRI DIAS

Lead Observability Engineer

📍 Colombo, Western Province, Sri Lanka (Hybrid) | 📞 +94 772 238 676 | ✉️ asiri.cmb@gmail.com 🔗 [LinkedIn](#) | 🖥️ [GitHub](#)

PROFESSIONAL SUMMARY

Lead Observability Engineer specializing in the architecture, optimization, and governance of centralized observability platforms. Recognized SME in Dynatrace APM and the Elastic Stack (ELK). Expert in engineering robust Logstash/Filebeat pipelines, OTel data processing, infrastructure-as-code (Terraform), and fostering high-performance engineering teams.

PROFESSIONAL EXPERIENCE

Lead Observability Engineer

Next Technology | Colombo, Sri Lanka (Hybrid) | Feb 2026 - Present - **Cost Optimization & Standardization:** Spearheaded enterprise-wide cost optimization initiatives by defining and enforcing strict observability standards across all departments. Developed cross-platform dashboards to track consumption, ensuring complete financial transparency. - **Team Leadership & Talent Development:** Managed and mentored a team of engineers through regular 1-on-1s. Defined actionable goals with measurable KPIs, and conducted performance evaluations using the 9-box grid matrix. - **Cross-Functional Collaboration & Architecture:** Partnered with external teams to assess project scopes, translating business requirements into technical documentation and scalable observability strategies. - **Dynatrace Architecture & Governance:** Designed OpenPipelines for advanced telemetry processing (OTel traces/logs). Led Dynatrace access management overhaul enforcing least-privilege access, standardized tags, and Management Zones. - **Full-Stack Monitoring:** Administered core Dynatrace functions (APM, RUM, Log Monitoring, AI-Alerting) and maintained high-performance Elasticsearch/Logstash pipelines. - **IaaS Alignment:** Utilized Terraform and Kubernetes best practices to ensure scalable deployments.

Senior ELK Engineer

Next Technology | Colombo, Sri Lanka (Hybrid) | Oct 2024 - Nov 2025 - Configured and optimized Elasticsearch clusters to ensure high performance and reliability. - Implemented and maintained multi-pipelines for diverse data sources within the Elasticsearch stack including Logstash. - Developed test environments using Docker Compose and monitored Filebeat for real-time log pickups. - Parsed and processed IPG logs, designing actionable Kibana and Grafana dashboards tailored to business needs. - Developed custom PowerShell scripts for automating day-to-day operational tasks.

ELK Engineer

Next Technology | Colombo, Sri Lanka (Hybrid) | May 2023 - Oct 2024 - Monitored and troubleshooted Logstash pipelines, ensuring seamless log processing. - Continuously optimized the Elasticsearch stack to meet evolving business requirements and ensure scalability. - Collaborated with teams to set up local clusters for testing using Terraform and Docker.

Elasticsearch Engineer

Nexon Asia Pacific | Remote (Contract) | Aug 2022 - Sep 2023 - Created and modified Elastic Kibana spaces using Postman, AWS Container Services, and Docker. - Built custom integration policies, ingest pipelines, index templates, and ILMs for custom TCP/UDP, JSON, and SYSLOG data. - Maintained the centralized Logstash pipeline for legacy applications, ensuring alignment with Elastic Common Schema (ECS). - Upgraded Elastic Clusters, Cloud Agents, Containerized Agents, and Integration policies across AWS Containerized Instances. - Troubleshooted missing events/logs and built alerting rules for the SOC team.

Assistant Manager L2 System Support

PickMe (D MSL (PVT) Ltd) | Colombo, Sri Lanka | Nov 2018 - Jul 2023 - E2E accountable for addressing production issues, achieving SLA targets, and performing RCA. - Implemented the ELK stack (Beats & Logstash) and analyzed logs from different microservices applications. - Configured Kibana visualizations to provide insights to dev teams. - Maintained backups in GCP storage and monitored Elasticsearch clusters and curator jobs.

TECHNICAL & LEADERSHIP SKILLS

- **Observability & Monitoring:** Dynatrace APM, Elastic Stack (ELK), Elasticsearch, Logstash / Filebeat, Kibana, Grafana, OpenTelemetry (OTel).
- **Cloud & Infrastructure:** Terraform, Docker, Kubernetes, Microsoft Azure, AWS (Amazon ECS), GCP, Ansible, Linux / Windows.
- **Engineering & Scripting:** Bash, PowerShell, JavaScript, PHP, SQL / MySQL / NoSQL, Microservices, Apache Kafka, Postman API, Git / GitHub.
- **Leadership & Management:** Team Leadership, Mentoring & 9-Box, Operations Management, Technical Support, System Administration, Cross-Functional Collaboration.

CERTIFICATIONS & TRAINING

- Elastic Certified Engineer
- Elasticsearch Engineer (On-Demand)
- Associate Cloud Engineer Certification
- Implement Load Balancing on Compute Engine Skill Badge
- Red Hat Certified System Administrator (RHCSA)
- Advanced Terraform (2020) & Learning Terraform
- S101: ScyllaDB Essentials Course Completion Certificate
- Getting Started with Redpanda
- Scrum Foundation Professional Certificate (SFPC)
- Six Sigma: Black Belt & Green Belt
- Toastmasters Speech Craft
- Strategic Task Force Development Training

KEY OPEN-SOURCE & PORTFOLIO PROJECTS

- **ELK Terraform:** Automated provisioning and configuration of highly available Elasticsearch clusters and monitoring environments using Terraform.
- **NXTL Asset Manager:** A centralized asset management tool developed to streamline the tracking and allocation of technical resources.
- **Delivery Rider Incentive Calculator:** A logic-driven computational engine designed to process delivery metrics and calculate dynamic rider incentives.
- **Geo-Spatial Visibility Controller:** A location-based backend service developed to dynamically manage and filter restaurant visibility based on geographic coordinates.
- **Ride-Sharing Fare Engine:** An algorithmic pricing calculator built to process distance, time, and demand factors to generate real-time fares.

EDUCATION

Master of Business Administration (Master Stage) *University of Gloucestershire | Feb 2022 - Sep 2022*

Postgraduate Degree, Strategic Management and Leadership *IDM Campus | May 2021 - Jan 2022*

Secondary School - Advanced Level, Business/Commerce, General *De La Salle College, Colombo | 2000 - 2010*
